

delivering **MOBILITY**

The TrailBlazer is all about access. Go where larger vehicles cannot with a complete sewer inspection system—all stored in a compact, organized and lightweight secure enclosure. Mount on an ATV, pick-up truck or trailer to efficiently inspect mainlines in hard-to-reach areas.

TRAILBLAZER

Smart Design / Rugged Construction

- Lightweight, lockable enclosure built with a weatherproof and corrosion-resistant shell (48" W x 53" H x 31" D)
- LED lighting for maximum visibility in the enclosure
- Equipped with two, 250 lb. capacity drawers to securely store accessories, tractors, and cameras
- Flip up sunshade for operator comfort
- Choice of two 15" sunlight-readable monitors or one 17" sunlight-readable monitor
- Shore power inlet; (4) 120V outlets and (2) USB outlets
- 33' pole set

Customized Build Out

- Choose from the Aries Mobile Pathfinder System or Master Controller System
- Multiple tractor (steerable and non-steerable; 6" to 60" pipe sizes) and camera options
- 1000+' cable
- Optional washdown tank
- Optional generator slide-out
